Navigating the Future through Specialization

Physiotherapy profession in Malaysia is evolving, shifting its horizon towards professional career focused on growing its education and policy through specialization. Working towards aspiration and goals of all physiotherapist in Malaysia, MPA takes the initiative to provide a platform for all the physiotherapists to exchange knowledge and experiences, making meaningful connections of professional organization including the academia, private and governments sectors in this conference.

Specialization and ongoing skill enhancement are essential in providing a better physiotherapy services. As a health care provider, physiotherapist helps individuals of all ages to maintain, restore and improve physical function by prescribing evidence-based exercises, providing education and promoting wellness specific for each condition.

Therefore, the objectives of National Physiotherapy Conference 2020 are:

1. To enhance knowledge and skill of exercise prescription offer revolutionary ways to exercise to fit individual needs
2. To enhance the quality of physiotherapy service through acquisition of current knowledge and skills
3. To encourage physiotherapy provider to view specialisation as a career pathway
